GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c.," for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 1428 books received and drawn up into the Library of Congress from the Copyright Office July 1 to August 25, 1910, inclusive, 56 were of class "a" and 1372 of class "b." Of the 1372 books of class "b" each book was sent up on the day it was received in the Copyright Office.

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A--Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total 1589 books received and drawn up into the Library of Congress from the Copyright Office July 1 to September 1, 1910, inclusive, 61 were of class "a" and 1528 of class "b." Of the 1528 books of class "b" each book was sent up on the day it was received in the Copyright Office.

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A--Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 1823 books received and drawn up into the Library of Congress from the Copyright Office July 1 to September 8, 1910, inclusive, 69 were of class "a" and 1754 of class "b." Of the 1754 books of class "b" each book was sent up on the day it was received in the Copyright Office.

GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 2053 books received and drawn up into the Library of Congress from the Copyright Office July 1 to September 15, 1910, inclusive, 96 were of class "a" and 1957 of class "b." Of the 1957 books of class "b" each book was sent up on the day it was received in the Copyright Office.

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A--Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 2310 books received and drawn up into the Library of Congress from the Copyright Office July 1 to September 22, 1910, inclusive, 109 were of class "a" and 2201 of class "b." Of the 2201 books of class "b" each book was sent up on the day it was received in the Copyright Office.

List of Copyright Renewals

---

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A--Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 2559 books received and drawn up into the Library of Congress from the Copyright Office July 1 to September 29, 1910, inclusive, 121 were of class "a" and 2438 of class "b." Of the 2438 books of class "b" each book was sent up on the day it was received in the Copyright Office.

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A--Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 2820 books received and drawn up into the Library of Congress from the Copyright Office July 1 to October 6, 1910, inclusive, 141 were of class "a" and 2679 of class "b." Of the 2679 books of class "b" each book was sent up on the day it was received in the Copyright Office.

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 3079 books received and drawn up into the Library of Congress from the Copyright Office July 1 to October 13, 1910, inclusive, 172 were of class "a" and 2907 of class "b." Of the 2907 books of class "b" each book was sent up on the day it was received in the Copyright Office.

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 3339 books received and drawn up into the Library of Congress from the Copyright Office July 1 to October 20, 1910, inclusive, 211 were of class "a" and 3128 of class "b." Of the 3128 books of class "b" each book was sent up on the day it was received in the Copyright Office.

GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 3660 books received and drawn up into the Library of Congress from the Copyright Office July 1 to October 27, 1910, inclusive, 262 were of class "a" and 3398 of class "b." Of the 3398 books of class "b" each book was sent up on the day it was received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 3968 books received and drawn up into the Library of Congress from the Copyright Office July 1 to November 3, 1910, inclusive, 302 were of class "a" and 3666 of class "b." Of the 3666 books of class "b" each book was sent up on the day it was received in the Copyright Office.

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 4170 books received and drawn up into the Library of Congress from the Copyright Office July 1 to November 10, 1910, inclusive, 331 were of class "a" and 3839 of class "b." Of the 3839 books of class "b" each book was sent up on the day it was received in the Copyright Office.

GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 4426 books received and drawn up into the Library of Congress from the Copyright Office July 1 to November 17, 1910, inclusive, 360 were of class "a" and 4066 of class "b." Of the 4066 books of class "b" each book was sent up on the day it was received in the Copyright Office.

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 4691 books received and drawn up into the Library of Congress from the Copyright Office July 1 to November 23, 1910, inclusive, 390 were of class "a" and 4301 of class "b." Of the 4301 books of class "b" each book was sent up on the day it was received in the Copyright Office.

GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 5030 books received and drawn up into the Library of Congress from the Copyright Office July 1 to December 1, 1910, inclusive, 443 were of class "a" and 4587 of class "b." Of the 4587 books of class "b" each book was sent up on the day it was received in the Copyright Office.

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number, printed with a hyphen, at the right and immediately above the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 5270 books received and drawn up into the Library of Congress from the Copyright Office July 1 to December 8, 1910, inclusive, 492 were of class "a" and 4778 of class "b." Of the 4778 books of class "b" each book was sent up on the day it was received in the Copyright Office.

GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 5569 books received and drawn up into the Library of Congress from the Copyright Office July 1 to December 15, 1910, inclusive, 521 were of class "a" and 5048 of class "b." Of the 5048 books of class "b" each book was sent up on the day it was received in the Copyright Office.

GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

---

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 5851 books received and drawn up into the Library of Congress from the Copyright Office July 1 to December 22, 1910, inclusive, 552 were of class "a" and 5299 of class "b." Of the 5299 books of class "b" each book was sent up on the day it was received in the Copyright Office.

WASHINGTON  
GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1910

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

Note.—In order to bring all titles of books received for copyright registration during 1910 within the volume of that year, four extra numbers of vol. 7 (no. 53-56) will be issued during January, 1911.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 6175 books received and drawn up into the Library of Congress from the Copyright Office July 1 to December 29, 1910, inclusive, 610 were of class "a" and 5565 of class "b." Of the 5565 books of class "b" each book was sent up on the day it was received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

Note.—In order to bring all titles of books received for copyright registration during 1910 within the volume of that year, four extra numbers of vol. 7 (no. 53-56) will be issued during January, 1911.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 6501 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to January 5, 1911, inclusive, 655 were of class "a" and 5846 of class "b." Of the 5846 books of class "b" each book was sent up on the day it was received in the Copyright Office.

GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1911

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

**Note.**—In order to bring all titles of books received for copyright registration during 1910 within the volume of that year, four extra numbers of vol. 7 (no. 53-56) will be issued during January, 1911.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 6735 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to January 12, 1911, inclusive, 686 were of class "a" and 6049 of class "b." Of the 6049 books of class "b" each book was sent up on the day it was received in the Copyright Office.

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 6967 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to January 19, 1911, inclusive, 716 were of class "a" and 6251 of class "b." Of the 6251 books of class "b" each book was sent up on the day it was received in the Copyright Office.

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

---

Note.—In order to bring all titles of books received for copyright registration during 1910 within the volume of that year, four extra numbers of vol. 7 (no. 53-56) will be issued during January, 1911.

GOVERNMENT PRINTING OFFICE  
LIBRARY DIVISION

1911

The Act of March 4, 1909, provides that the Catalogue of Copyright Entries shall be "admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

*Class a* Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

*Class b* Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

---

For the present fiscal year, out of a total of 7224 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to January 26, 1911, inclusive, 746 were of class "a" and 6478 of class "b." Of the 6478 books of class "b" each book was sent up on the day it was received in the Copyright Office.

**T**HE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

---

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is \$1.00 for 1910, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

---

Note.—The annual index for the 1910 volume of Part 1, Group 1, Books, is in the hands of the printer and will appear shortly as a separate issue.
